Software tools that take the nightmare out of tenement compliance and land acquisition - *Quadruple your productivity or your money back.*

Mineral Titles Audit Training Webinar Presentation #1

Monday 5th September 2011

What is a Webinar and why are we using it for training?

- A Webinar (short for web-based seminar) is an interactive presentation, lecture, workshop or seminar that is transmitted over the internet (web).
- We chose to use webinars for training because:
 - You will get more value from Mineral Titles Audit with more frequent, structured and interactive training sessions
 - You may invite colleagues we may not have met (or even be aware of) to attend any sessions and get value using Mineral Titles Audit
 - It will help us assist you better by getting more frequent feedback

An Introduction to Webinar Training

Some important points to help you get the most of your webinar training experience:

- Voice and Visuals – I will be communicating to you using audio and visual media (like right now)
- Chat/Text Message – You may communicate to me using the chat message feature. If you send me a message that is relevant to most on the webinar, I will try to address it on the webinar. Otherwise, if a response is required I will contact you after.
- Interactivity – The best time to ask questions is whilst I'm going through the training. I will finish the section I'm on, then address any questions I see pop up. And don't worry you won't miss out on the actual content because...
- Recording – All webinars will be recorded and distributed.

Webinar Training Schedule

Our plan for each webinar session:

- Run for 30 minutes
- Held Monthly
- Run between the times below (depending on poll)
 - 7:30-8:00am
 - 1:30-2:00pm
- Following webinar sessions (after this first one) will be announced at the end of each session.

Mineral Titles Audit Overview

Seamless Tenement Data Extraction, Auditing and Reporting

- Extracts tenement details from Mineral Titles Online (MTO) for all your tenements AUTOMATICALLY
- Uses all tenement details from MTO for quick reference, bulk reports and auditing
- Benefits:
 - Up to date data on the click of a button
 - Saves massive amounts of time
 - Produces due diligence reports (and many more)
 - Seamless auditing of your own tenement database

Mineral Titles Audit Key Benefits

The key benefits of Mineral Titles Audit are gained from tasks that involve tedious transcribing or comparing of data such as:

- Locality
- Status
- Current Area and Type
- Applied Area
- Granted Area
- Current Year Commitment
- Current Year Rent
- Next Year Rent
- Date of Next Rent Due (Anniversary +30 days)
- Date of Next Form 5 Due (Anniversary + 59 days)
- Date of Next Technical Report Due (Anniversary + 30 days)
- Date of next Partial Surrender Due (Anniversary – 30 days)
- Grant Date
- Expiry Date
- Relinquished Date
- Group Report Number
- Total Shares

Mineral Titles Audit Demo Region

The 274 tenements chosen for the demonstration are retrieved from the area of interest shown below (from MapInfo).

Area of Interest Polygons

Tenements intersecting Areas of Interest

Mineral Titles Audit Training Topics

- Basic Settings, Tenement List Importing, Scanning, Reporting and Support
- Auditing your Tenement Schedule
- Creating Tenement Sets using the MTO Enquiry Source Feature
- Reporting and the "Export to Excel with Template" Feature
- Automating Mineral Titles Audit (Running in Batch Mode)

Please send me a chat message if there are:

- topics not listed above you may like to see
- Specific items within the above topics you would like to cover

Thank You!

for attending our first ever webinar and
helping to make it a great success...

Please take the next few minutes
to provide us with feedback
on this session in the survey
you will receive on exit
